all 4 sides, minimum.

Smaller than that: one-colour
icon only, 16px/8mm floor.

ON DARK BACKGROUNDS

Always switch to the Reversed
White file — full color on dark is
never correct.

8 THINGS NEVER TO DO

Stretch or distort · rotate off-axis ·
recolor off-palette · add
shadows/bevels · use full color on dark
· add an unauthorized container ·
crowd the clear space · redraw with
system fonts.

Need an asset or an exception? assets@wechinasourcing.com — never source a logo file from a screenshot, a prior printed piece, or a partner's own files.
